Information We Collect from You

In general, we receive and collect all information you provide via the Services, including through website input fields, phone, email (including email campaigns), web chat, or in other such ways. This includes personal information that can identify or relates to you, including but not limited to your first and last name, email address and password. You have the choice on what information to share and the services you want to engage. You can choose not to provide information to us, but in general some information about you is required in order for you to access certain

functionality of the Services, such as those mentioned above or for tracking your preferences or initiating other actions.

We also may periodically obtain information about you from affiliated entities, partners and other independent third-party sources and will add it to our database of information. For example, we may receive information about your interaction with advertisements on third party websites, including updated postal addresses and demographic information.

We may use cookies, log files, web beacons, device identifiers, advertising identifiers and similar tracking technologies, including those from third-party service providers like Google Analytics, Google Tag Manager, Google Search Console, and other cloud-based tools, to automatically collect your preferences, performance data, and information about your web usage when you access the Services; provided, however, that this information is not connected to your personal information from your sign-up for the Services. For example, we may collect your IP address, device and Internet service provider information, Web browser details and the address of any referring website. This may include collecting geolocation signals from your IP address or device settings to determine your location so that we may operate and personalize the Services for you, including to provide more relevant ads and search results. We may also collect information about your online activity, such as pages viewed and interactions with other users. The Services are not designed to recognize or respond to “do not track” signals received from browsers. You can control the information collected by such tracking technologies or be alerted when cookies are sent by adjusting the settings on your Internet browser or devices, but such adjustments may affect or disable certain functionality of the Services. You can learn more about Google Analytics and your options for opting out of interest-based Google ads at <https://adssettings.google.com>. You can learn more about targeted ads and your ability to opt out of receiving interest-based ads at optout.aboutads.info and www.networkadvertising.org/choices.
